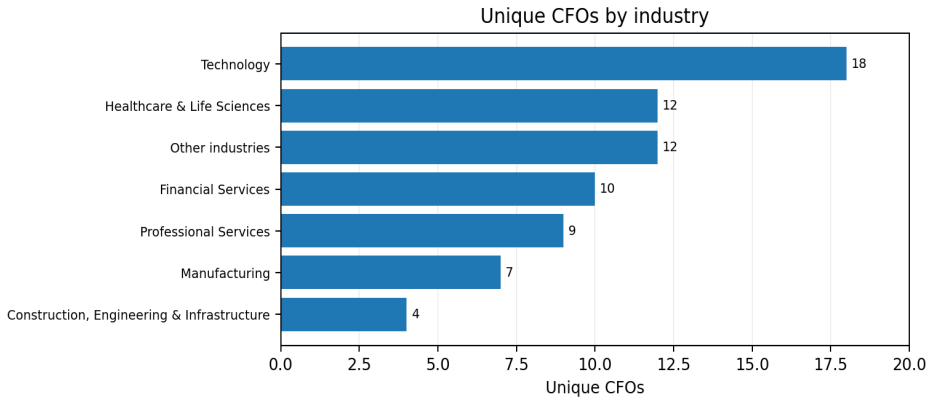
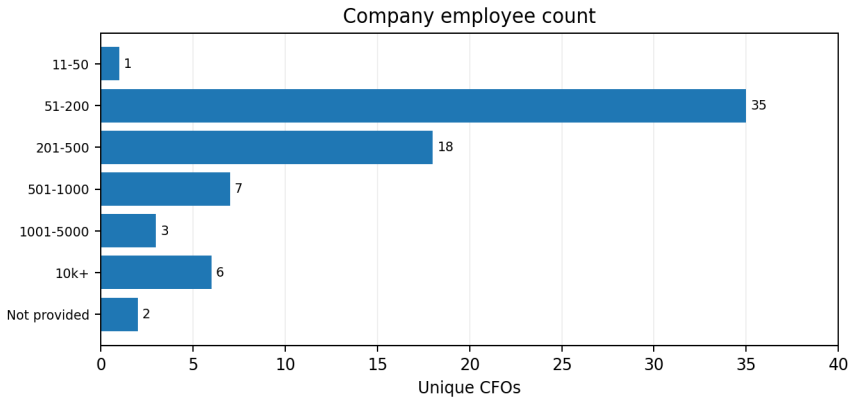
CFO AI Advisors Round Table

Anonymized Audience Profile | August–October 2026

This report summarizes the three most recent monthly attendance sheets provided (August, September, and October 2026). The Round Table program has been running for several months, so these figures are a recent snapshot—not the full program history. All attendees are CFOs, as designated for this audience. No attendee names, company names, email addresses, or profile links are disclosed.

94	72	3	12
Attendance records across 3 months	Unique CFOs after deduplication	Monthly sheets represented	Industries represented





Key takeaways and chart notes

Company size: Of the 70 unique CFOs with employee-count data, 54 (77.1%) are at organizations with 500 or fewer employees. Two unique CFO records have no employee-count value.
Industry mix: Technology is the largest represented industry (18), followed by Healthcare & Life Sciences (12) and Financial Services (10).
Monthly attendance records: August 33, September 30, October 31.
"Other" definition: "Other industries" includes only Nonprofit & Associations (4), Retail & Consumer Services (2), Education (2), Hospitality, Travel & Entertainment (2), Food & Agriculture (1), and Logistics & Transportation (1)—12 unique CFOs total. Categories displayed separately in the chart are not repeated here.

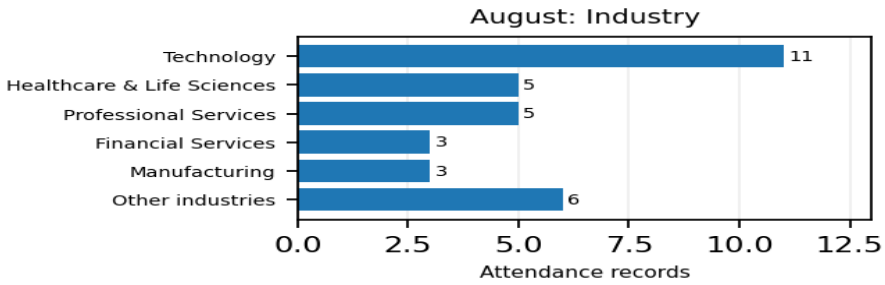
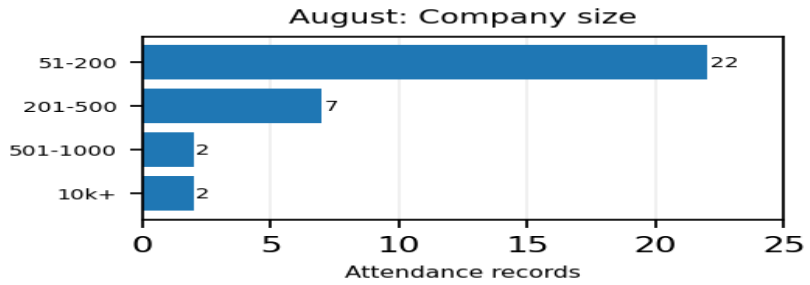
Monthly Audience Snapshots

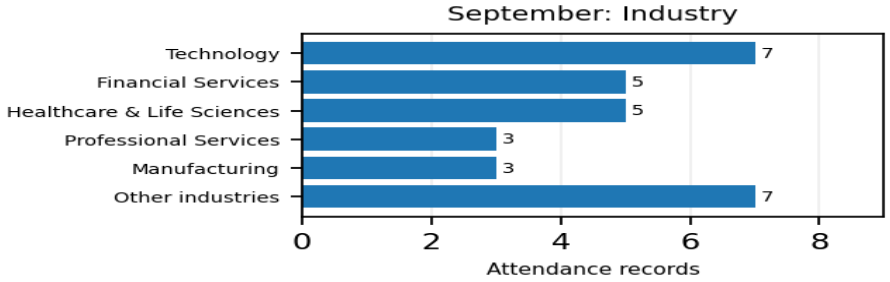
Charts show actual attendance records in each month's sheet, not unique people across the full three-month period.

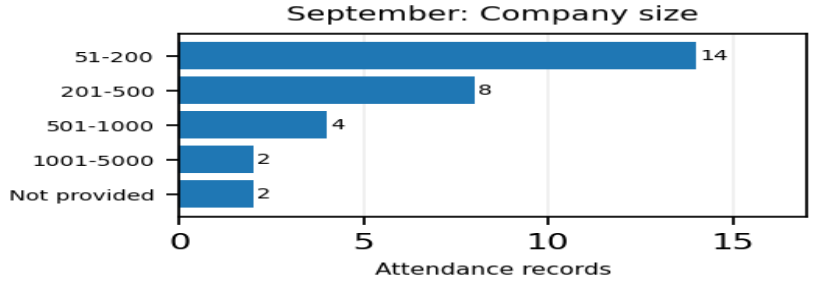
August | 33 CFO attendance records



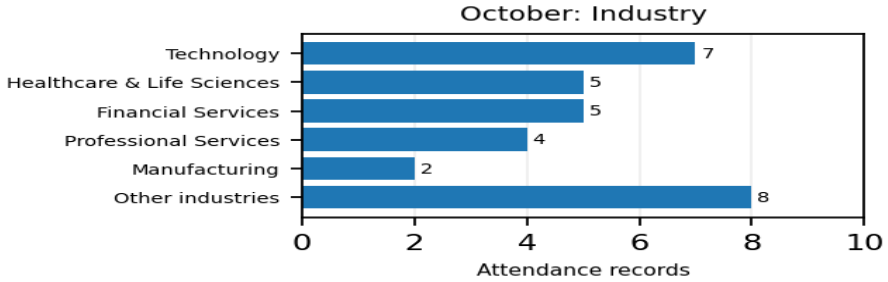


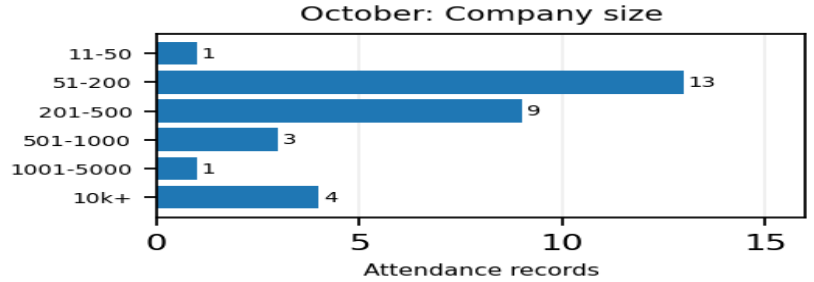
September | 30 CFO attendance records





October | 31 CFO attendance records





Data checks: 33 + 30 + 31 = 94 attendance records. Deduplication across the three sheets yields 72 unique LinkedIn profiles. Industry and employee-count values were consistent across repeated profiles; two September records had missing employee-count data.
