ANNULAR CUTTERS
CORTADORES ANULARES

Hechos para marcar la diferencia!

Los cortadores anulares, también conocidos como brocas de corona, o cortadores de agujeros, son herramientas de corte especializadas que se utilizan para perforar agujeros precisos y limpios en diversos materiales, especialmente en metales.

Nuestra linea de cortadores anulares incluye una variedad de modelos diseñados para satisfacer las necesidades de diferentes aplicaciones y usuarios.

La linea ATD TOOLS de cortadores anulares destaca por su variedad de tamaños, calidad de construcción, diseño preciso y adaptabilidad para diversas aplicaciones.

Estas herramientas ofrecen una solución eficiente y confiable para las necesidades de perforación en diferentes industrias y entornos de trabajo.

Pilot Pin

Los Pilo Pin o guias como tambien se le conocen, sirven para centrar el corte sobre la superficie a cortar, a demas, si se cuenta con el equipo adecuado sirve tambien para dar paso al liquido refrigerante al interior del cortador anular y para ejectar el material cortado.

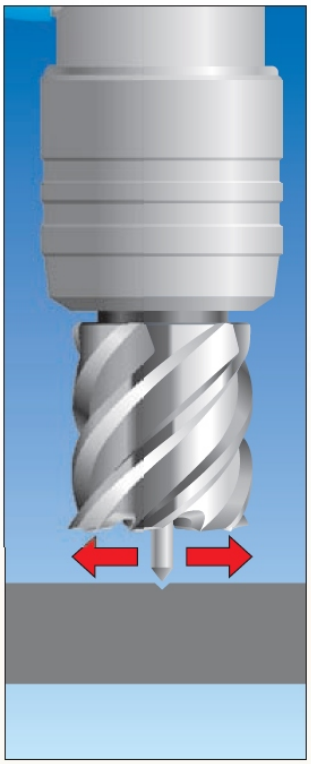

***Todos los cortadores anulares ATD TOOLS contienen dentro de su paquete el Pilot Pin.**

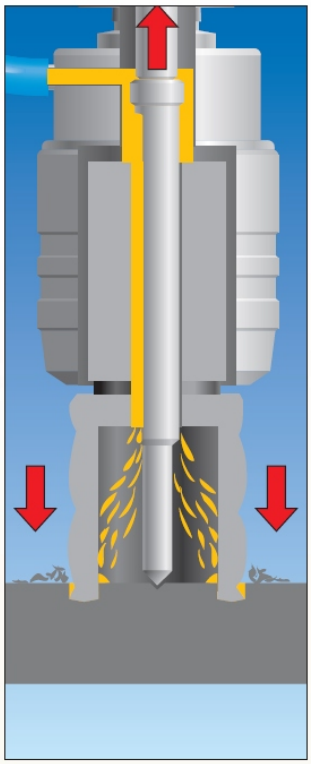

PILOT PIN	SIZE	MATCHING CUTTER
ATD-DPB62090	SUITABLE PIN 6.34mm X 90mm	1/2" - 11/16"
