

Moving Checklist

Stay Organized Before, During & After Your Move

Moving can feel overwhelming, but having a plan makes the process much easier. Use this simple timeline and checklist to stay organized from the moment you start packing until you're comfortably settled into your new home.

Timeline	Checklist
4-6 Weeks Before	■ Create a moving budget ■ Hire movers or reserve a truck ■ Start decluttering ■ Gather packing supplies
2-3 Weeks Before	■ Begin packing non-essentials ■ Label every box ■ Notify schools and employers ■ Schedule utility transfers
1 Week Before	■ Pack essentials separately ■ Confirm moving day details ■ Change your address ■ Arrange child and pet care if needed
Moving Day	■ Walk through the home ■ Take final meter photos ■ Keep important documents with you ■ Check every room before leaving
After You Move	■ Set up utilities ■ Change locks if needed ■ Test smoke & CO detectors ■ Update driver's license and registrations ■ Unpack essentials first

Moving Tip: Pack one clearly labeled 'First Night' box with medications, chargers, toiletries, important documents, snacks, bedding, and a change of clothes so you can easily access your essentials after moving in.
